

Republic of Bulgaria

Ministry of Environment and Water

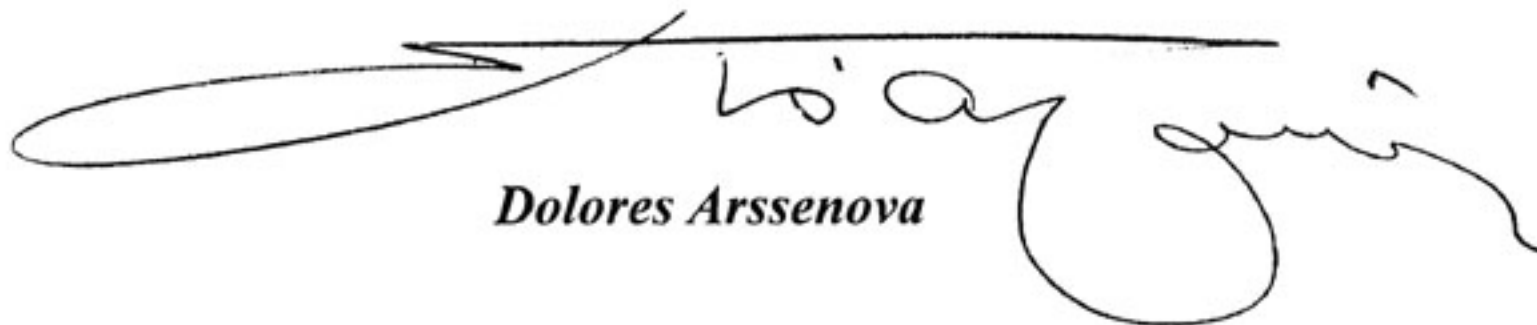

Minister

Let us people all over the world, who keep great hope and warmth in our hearts, join together in a call for the common good of all life on Earth. Let transcend barriers of nationality, race, religion, circumstances, social level, historic and cultural differences in order to overcome evil with good, falsehood with truth and hatred with love.

Let communicate more to each other, to keep constant dialogue regardless of any borders.

I believe that in this way we will succeed to create future social system based on humanitarian principles – to live in peace and happiness.

I am adding my voice for world peace and future human welfare.

Dolores Arsenova
